CLOSED AREAS

The Homewood Ski Patrol may, at times, close boundary access and portions of the ski area. These closures are implemented to prevent you from entering areas that pose a hazard to your health. You are not permitted to enter closed areas. Homewood strictly enforces this policy. If you are found in a closed area, your lift privileges and day ticket or season pass will be revoked and you may be arrested.

A green circle, blue square or black diamond trail at Homewood is not necessarily the same as similarly rated trail somewhere else. It's a relative system valid only at this area. Regardless of skill level, you should work your way up, beginning with the easiest trails, until you're familiar with the terrain.

SMART STYLE

- **Make a Plan:** Every time you see freestyle terrain, make a plan for each feature you want to use. Your speed, approach and take off will directly affect your maneuver and landing.
- **Look Before You Leap:** Before getting into freestyle terrain observe all signage and warnings. Scope around the jumps first, but not over them.
- **Easy Style It:** Know your limits and ski/ride within your ability level. Do not attempt any features unless you have sufficient ability and experience to do so safely.
- **Respect Gets Respect:** Respect the terrain and others (freestyle terrain is for everyone regardless of equipment or ability). One person on a feature at a time. Wait your turn and call your start. Always clear the landing area quickly. Respect all signs and stay off closed terrain and features.

BACKCOUNTRY

Homewood maintains an open boundary policy. The area beyond the ski area boundary is in its natural state and Homewood does not regularly patrol, perform avalanche control, or take additional measures to mitigate the hazards to which you might be exposed. Entering the backcountry involves risks posed by deep snow, avalanches, steep terrain, cliffs, and other terrain variations. If you're skiing or snowboarding beyond the ski area boundary, you assume all risks inherent in the backcountry. Please take time to educate yourself about the risks before entering. It is unlawful to cross through closed areas to access the ski area boundary. Please ski and snowboard responsibly.

YOUR RESPONSIBILITY CODE

- Always stay in control. Maintain the ability to stop and avoid other people and objects.
- Avoid the people ahead of you. They have the right of way, and it's your responsibility to yield to them.
- Do not stop where you obstruct a trail or are not visible from above.
- Look uphill and yield to others when starting downhill or merging into a trail.
- Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings.
- Keep off closed trails and out of closed areas.
- Prior to using any lift, know how to load, ride and unload safely.
