

The Burnt Mountain area originates from the summit of Burnt Mountain and features much of the steepest sidecountry terrain at Sugarloaf. It is hand cut, with a mix of tight, narrow glades and wider expanses. The summit of Burnt Mountain can be accessed via the Burnt Mountain hiking trail, which begins at the terminus of the Golden Road.

The Eastern Territory represents the far eastern region of Burnt Mountain. This area is logged by a commercial harvester, and features a mix of wide open glades and logging roads. The logging roads all lead to two large log yards, which can be used as reference points.

Brackett Basin® is the first area accessed off the King Pine lift. It is hand cut, and features a mix of steep, narrow glades, wider expanses, as well as several small cliff bands. You can ski back to the King Pine or Whiffletree lifts from anywhere in Brackett Basin®.

- SLOPE SAFETY**
- YOUR RESPONSIBILITY CODE**
- Always stay in control. You must be able to stop or avoid people or objects.
  - People ahead or downhill of you have the right-of-way. You must avoid them.
  - Stop only where you are visible from above and do not restrict traffic.
  - Look uphill and avoid others before starting downhill or entering a trail.
  - You must prevent runaway equipment.
  - Read and obey all signs, warnings and hazard markings.
  - Keep off closed trails and out of closed areas.
  - You must know how and be able to load, ride and unload lifts safely. If you need assistance, ask the lift attendant.
  - Do not use lifts or terrain when impaired by alcohol or drugs.
  - If you are involved in a collision or incident, share your contact information with each other and a ski area employee.
- If you need help understanding the Code, please ask an employee.*
- KNOW THE CODE. IT'S YOUR RESPONSIBILITY.**  
 Be advised that all fencing, equipment covers, poles, signage and other marking devices are in place to inform you and to indicate a potential hazard or obstacle. These markers will not protect you from injury. It is your responsibility to stay away from marked areas.
- FIRST AID FACILITY**  
 The First Aid Facility is located at the R.H. Bell Interfaith Chapel off the Birches Slope.

- SKI WITH CARE**
- Alpine skiing and snowboarding are challenging and dangerous recreational activities in rough mountain forest terrain. Be alert to continually changing weather, visibility and surface conditions. Snow, ice, sheer drop-offs, bare ground, rocks, roots, stumps, trees, lift towers, ruts, bumps, snowmaking equipment, grooming vehicles, snowmobiles, other skiers, power poles and many other natural and man-made obstacles can cause permanent, catastrophic injury or death. Your safety is directly affected by your judgment. Failure to use good judgment, ski responsibly or follow Your Responsibility Code may result in the loss of skiing or snowboarding privileges. Snowmaking, grooming and ski area maintenance procedures and vehicles may be in operation at any time on open terrain. Do not ski or snowboard near such equipment.
- Skiing and snowboarding in Sugarloaf Mountain's gladed terrain requires good judgment and personal awareness. Access in and out of these glades can be challenging. The gladed regions are vast and ski patrol's ability to locate lost or injured patrons may be hindered by the scope of the terrain. All skiers and snowboarders are encouraged to enter the glades in groups of 3 or more and not travel alone. Most of this area is left in its natural state. It contains unmarked hazards including cliffs, rocks, fallen trees and avalanche hazards. Sugarloaf Mountain strictly forbids skiers and snowboarders from exiting the ski area boundaries and all signs and markers must be obeyed. Glades are for expert skiers and snowboarders only and all guests who enter these areas should be familiar with the trail map and ask questions to ski patrol before proceeding.  
**Do not enter this area after 3:00pm.**

**FOREVERPROJECT**

We're committed to sustainability and are working hard to reduce our environmental impact at every level of resort operations. In fact, this map was printed on 10% post-consumer recycled paper. Learn more about our initiatives at: [sugarloaf.com/sustainability](http://sugarloaf.com/sustainability)

## WELCOME TO WEST MOUNTAIN

- Some of the largest slopeside lots anywhere at Sugarloaf will offer unparalleled privacy combined with easy ski-in/ski-out access. In the summer months these homes will also provide easy access to the Sugarloaf Golf Club, including a potential new 9-hole course now in planning stages. Buyers can build to suit their individual needs, making these easily the most desirable lots in Carrabassett Valley.
- Sugarloaf's newest condominium development will offer upscale living with the ultimate slopeside convenience. Plans call for options to meet a variety of needs, with units ranging from two to four bedrooms, plus ample gear storage and other amenities.
- Townhouses will offer a dash of luxury to your mountain getaway. Duplexes will ensure that every unit is an end unit, with high end finishes and ski-in/ski-out convenience, plus proximity to the Sugarloaf Golf Club.
- New parking areas will provide quick and easy access to Sugarloaf's newest lift and trails, and a new parking lot access trail will create ski-in/ski-out parking convenience for Sugarloaf skiers and riders.
- New alpine trail development will open up roughly 140 acres of new beginner and intermediate trails, complete with the latest in low energy snowmaking technology. This new terrain will make West Mountain the newest hub for family-friendly skiing and riding, and provide the ultimate ski-in/ski-out convenience for new West Mountain homes.
- Lift developments will include a new high-speed, high-capacity chairlift running from West Mountain Road all the way to Bullwinkle's Restaurant. This new lift will improve access for West Mountain home owners, with a 7-day-a-week operating schedule and a vastly reduced ride time, meaning less time on the lift and more time on the snow. The existing West Mountain lift will be shortened to eliminate redundancy and congestion, while maintaining ease of access for existing West Mountain homeowners.

## SUGARLOAF UPHILL ACCESS GUIDELINES

Sugarloaf embraces uphill skinning and snowshoeing. For the safety of everyone on the mountain, we ask that anyone participating in these activities adhere to the following guidelines. All uphill travel is done at each individual's own risk.

All uphill skiers and riders must read the Mountain Report and check the Ski Patrol whiteboard located on the trail map sign at the bottom of the SuperQuad every day prior to climbing.

**UPHILL ACCESS ROUTES**  
Uphill activities are limited at all times to the following trails:

- Windrow
- West Mountain
- Horseshoe
- Timberline

In addition, Burnt Mountain is also open to uphill traffic whenever it is designated as open by Ski Patrol.

**TIMING**  
The mountain opens to uphill travel at 7am, and to downhill traffic at 8:30am. No downhill traffic is permitted prior to 8:30am. As always, downhill traffic is limited to open terrain only.

Ski patrol performs closing procedures at end of operating hours every day. After-hours travel of any kind is not allowed on any trails. If you are on the mountain at this time you will be required to ski or ride down.

**EQUIPMENT**  
Uphill travel equipment is required to have metal edges, a restraining device or brakes, and an industry-approved binding. (AT skis, tele skis, splitboard, and snowshoes are all fine.)  
Nordic equipment is not permitted above the Base Lodge.

**TICKETS/PASSES**  
All uphill skiers and riders are required to have a valid season pass or day ticket. If you do not intend to ride a lift at any point during the day, you can purchase an Uphill Access day ticket for \$20 from Guest Services. Uphill Access Season Passes are also available to purchase through Guest Services.

**DOGS**  
Sorry, pets are not permitted on the mountain trail network above the Base Lodge.

**PLEASE NOTE**  
Ski Patrol reserves the right to close the mountain to uphill activities at any time due to severe weather, dangerous surface conditions, or other factors. Ski Patrol may also change the approved routes of uphill travel at any time based on mountain operations.

**Outside TELEVISION**

**WSKI 17 SUGARLOAF**

**THE MOUNTAIN REPORT**  
Tune in to WSKI-TV 17 for the latest weather and trail conditions. Watch the Mountain Report Live on Friday nights, Saturday, Sunday and Monday mornings and holiday weeks for live condition reports and the latest news from Sugarloaf.
