Glade and Chute Skiing Areas – Please use caution.
 Glade and chute skiing areas may be ungroomed. You may find unmarked obstacles such as rocks, ledges, stumps, trees, bare spots and variations in terrain. Do not proceed unless you accept responsibility for your safety and equipment, and are willing to confront all conditions and risks of a mountain environment. Lifts and trails exist in a mountain environment, and may close due to weather, usage and/or special maintenance.
